

Call for Reviewers

Getting involved in the peer review process can be a highly rewarding experience that can also improve your own research and help to further your career. The Centre for Global Policy Research (CGPR) is seeking individuals with expertise in quantitative and qualitative methods to serve as peer reviewers. Scholars and practitioners are welcome to join our diverse and interdisciplinary pool of peer reviewers. CGPR upholds a transparent, double-blind peer-review process designed to ensure rigorous, constructive, and inclusive scholarly discourse. We welcome reviewers from diverse linguistic, cultural, and disciplinary backgrounds to contribute to our mission of equity, access, and interdisciplinarity in research.

Acting as a reviewer means that you have the opportunity to see new work in progress in your area of expertise before it is published. As a peer reviewer, you get to see the comments of other peer reviewers on manuscripts that you review. Seeing how research is evaluated by other experts in your field will sharpen your understanding of what constitutes a good paper, which will help you as an author. The skills and knowledge you develop in peer review are skills that you will find valuable in every other aspect of your career as a researcher in CGPR. Being a peer reviewer is a way of being a good citizen in your research community. While your peer review is anonymous to authors, insightful reviewers are noticed by Editors. Good reviews contribute to your reputation. Evaluate cutting-edge papers, collaborate with leading experts, and enhance your professional profile.

As a reviewer, you will shape the future of leadership discourse by helping identify the most innovative and impactful presentations; Gain early insights into cutting-edge research and practices before they're shared with the broader community; Deepen your own expertise by engaging with diverse perspectives and methodologies across the leadership field; Connect with fellow experts and contribute to meaningful scholarly dialogue; Play a crucial role in ensuring the quality and impact of cutting-edge research, contributing to the advancement of knowledge in your field. This is an opportunity to be recognized in the academic community, collaborate with like-minded professionals, and make a meaningful impact on research dissemination; Preview cutting edge scientific work that helps you stay atop your field.

If you would be interested in volunteering as a reviewer for CGPR, please provide the following:

Name

E-mail Address

Institutional Affiliation

Country

Areas of expertise (including substantive and methodological areas of interest)
